

0.0 Name Tag PDF

Technology Commons
Port Credit Secondary School

Clear photo. Clear file. Clear submission.

Value: /10

Submit: Google Classroom

Final file: one PDF

Learning goal

I can take a clear, well-composed photo, create and check a PDF that includes my student number, and follow digital submission instructions carefully.

Why are we doing this?

This is practice for a course skill we will use again: turning clear work into one organized PDF, checking it, and submitting the correct file.

Your mission

1	Take a clear, well-lit photo of your name tag.
2	Add the photo to a Google Doc or other software that can create a PDF.
3	Crop and resize the photo so the name tag is clear and easy to read.
4	Include your student number on the page using the exact format shown at right. Replace student-number with your actual student number.
5	Export or save the finished page as a PDF .
6	Open the PDF and check that everything is clear, upright, complete, and easy to read.
7	Submit the PDF to Google Classroom.

Required format

TYPE THIS ON THE PAGE

Submitted by: student-number

Replace student-number with your actual student number.

Before you submit

- ☐ Name tag is easy to read
- ☐ Photo is cropped and oriented correctly
- ☐ Student number is included in the exact format
- ☐ File opens as a PDF
- ☐ I opened the final PDF and checked it

0.0 Name Tag PDF · Rubric · /10

Each criterion is worth 2 marks, for a total of /10: 4+ = 2 marks · Level 4 = 1.5 marks · Level 3 = 1 mark · Level 2 = 0.5 marks · Level 1 = 0 marks.

Criterion	4+ · 2 marks	Level 4 · 1.5 marks	Level 3 · 1 mark	Level 2 · 0.5 marks	Level 1 · 0 marks
Photo quality Can we clearly read the name tag?	Exceptionally clear, well-lit, sharp, and easy to read.	Clear, well-lit, and easy to read with only a minor imperfection.	Readable and appropriately lit; some improvement is possible.	Partly difficult to read because of lighting, blur, angle, or distance.	Photo is missing or too unclear to use.
Crop & layout Is the page clean and focused?	Photo is carefully cropped, sized, oriented, and placed for excellent readability.	Photo is well cropped, sized, oriented, and easy to view.	Layout works, but there may be extra background, awkward sizing, or minor orientation issues.	Layout makes the name tag unnecessarily small or difficult to view.	Photo is not appropriately placed, cropped, or oriented.
Student number Did you identify your submission correctly?	Correct student number is easy to find and uses the exact required format.	Correct student number is included with only a very minor formatting issue.	Student number is present but the required format is not followed.	Identification is incomplete or difficult to find.	Student number is missing or incorrect.
PDF skill Did you create and check the file?	Clean, correct PDF opens properly and has clearly been checked before submission.	Correct PDF opens properly and is complete with only a minor issue.	PDF is usable, but has a small file, page, or presentation issue.	File is technically a PDF but has significant readability, page, or export problems.	Submission is not a usable PDF.
Following instructions Did you complete the whole process?	Every instruction is followed carefully and the final submission is complete.	All required instructions are followed with only a minor oversight.	Most instructions are followed; one required element needs correction.	Several instructions are missed or repeated prompting is needed.	Submission is incomplete or does not demonstrate the required process.
